

Inspiring Minds Programs for creativity, innovation, team-building & leadership

Short & longer programs to suit any organisation, team & conference / event.

Team Building, Leadership, Brainstorming and Training Programs for an outperformance culture.

Unlock creative potential and increase wellbeing, teamwork, innovation and productivity.

Why?

Sustained growth in the future can only be achieved by the continuous generation of new, creative ideas and strategies.

Many organisations today have turned to workplace innovation programs in the conviction that creativity is one key to competitive survival. And organisations know their ability to innovate lies in the creativity and abilities of their people.

Creativity will be the strategic tool for the 21st Century.

Creativity Australia's With One Voice program

Creative Universe is proud to support Creativity Australia, a charity that utilises creative programs to enhance wellbeing, social inclusion, innovation and productivity for individuals, organisations and communities.

Their hugely successful **With One Voice** social inclusion & community wellbeing programs bring together disadvantaged people and members of the workforce through choir programs, encouraging mentorship, employment, networking and wellbeing in 12 areas of Victoria.

You can support the **With One Voice** program by joining a choir, making a donation to sponsor the participation of a disadvantaged person, booking one or more of the choirs to perform at your next function, or starting up a choir of your very own in your workplace! When many diverse voices come together as "one voice" on a regular basis the outcomes are transformational.

"Tania de Jong and her Melbourne Sings Choir struck at the core of what it means to embrace diversity, the innate creativity in all of us and the power of collective energy to create positive change. Their voices and enthusiasm opened our hearts and inspired us all.... a perfect ending to a very successful night." Diversity@Work Awards
